

TWO HOUSING DEVELOPMENTS PROPOSED IN SPOONER ROW

PLEASE GIVE US YOUR VIEWS

PUBLIC EXHIBITION TO BE HELD ON WEDNESDAY 18TH JULY 2012

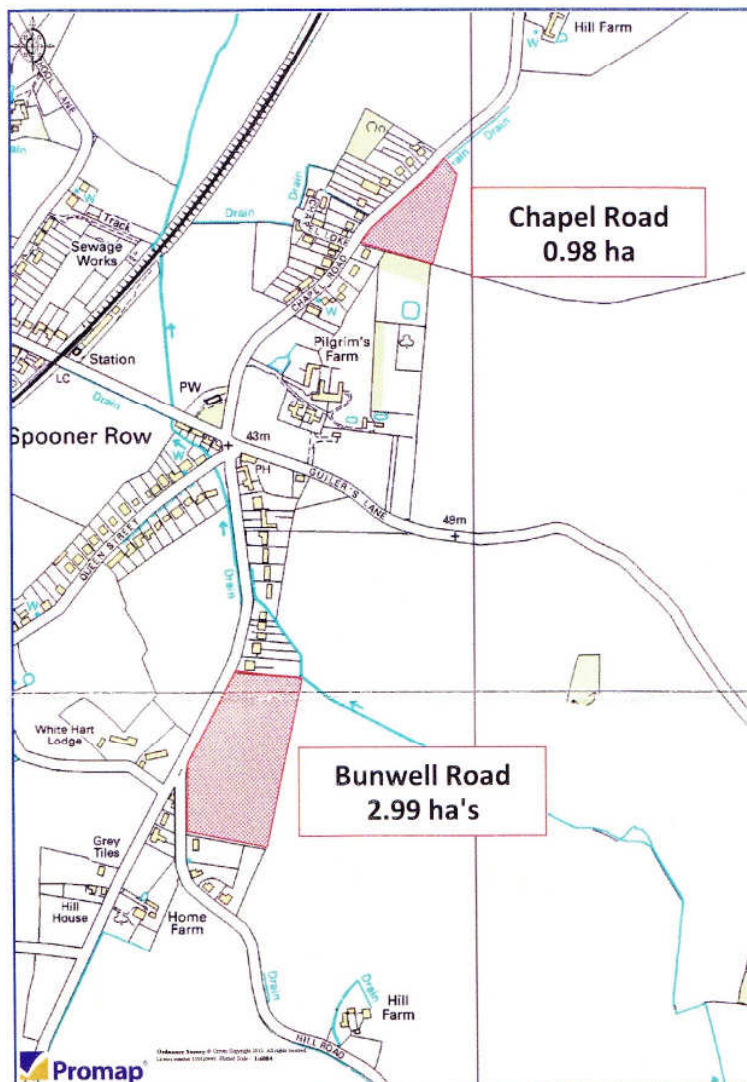

J. Alston & Sons Ltd is preparing a planning application for development on the sites marked red on the plan.

20 new houses are proposed for Bunwell Road, while 12 units are proposed for Chapel Road.

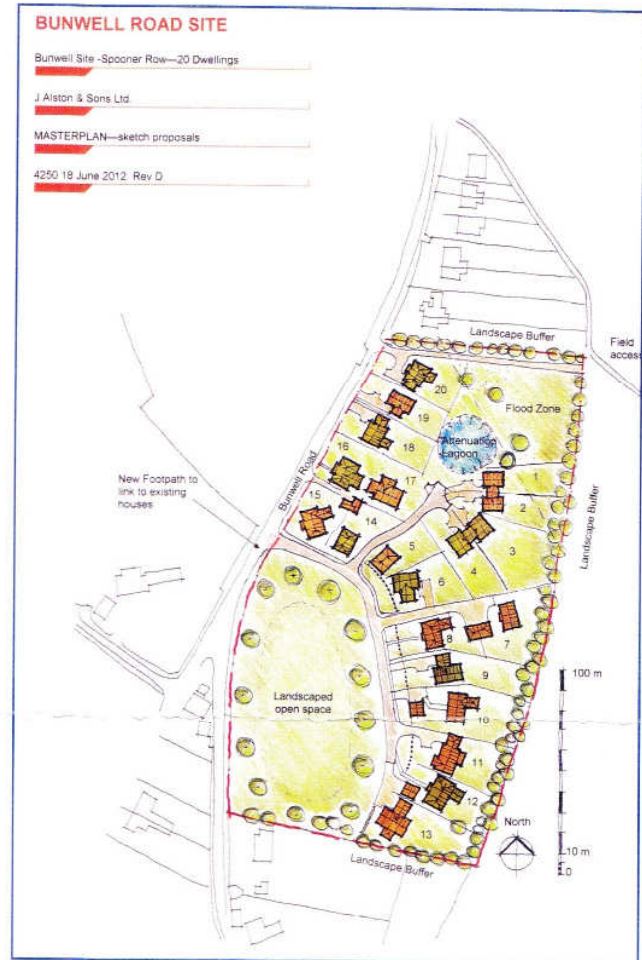

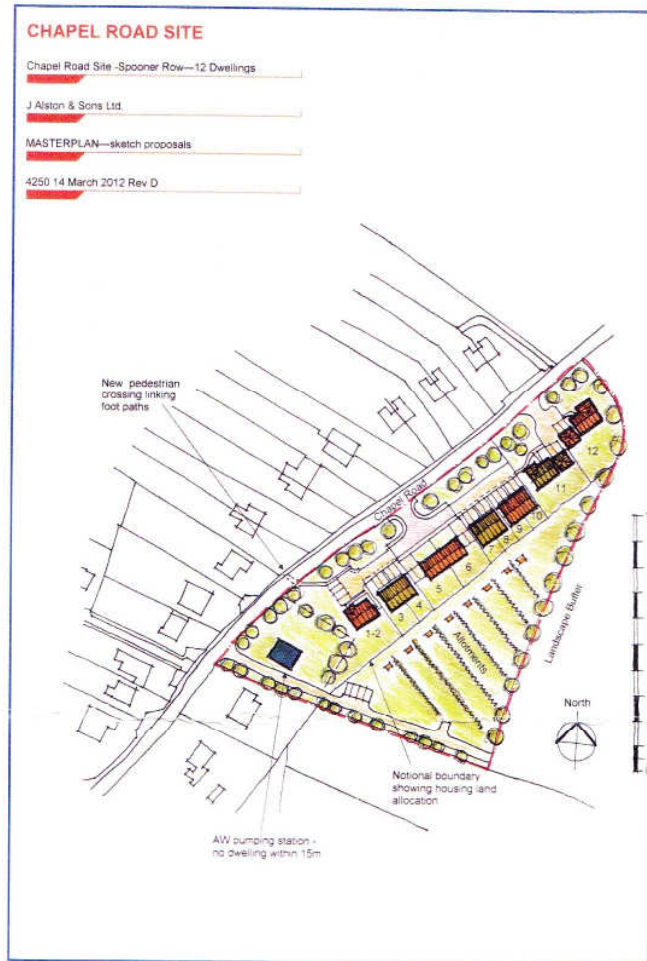

Development can increase the demand for services and facilities in a village, assisting their viability. Development can also contribute to the provision of new and improved facilities and amenities.

For instance, the following benefits are being considered as a consequence of these developments:-

- The improvement of and/or extension to the village hall.
- The possible introduction of sustainable transport measures, including an increased train service, an aspect we are discussing with Greater Anglia.
- Additional and improved play equipment on the playing field.
- An improvement to the teaching accommodation at the school.
- The provision of new open space in the village.
- New allotments.
- Relocation of pumping station to improve the current system.

We welcome your response to these proposals.

We are holding a public exhibition in the Spooner Row Village Hall on Wednesday 18th July 2012 from 2pm to 7pm. Please come along to give us your views. In particular, we would like to hear:-

1. Your opinion on the proposed development of the two sites shown on the plans.
2. Whether you have a preference for the improvement of facilities in the village.
3. The demand for allotments and further public open space in the village.

If you are unable to attend the exhibition,
please contact us with your comments:-
